

The Bone Clocks

A Novel, by David Mitchell

(Random House, 9781400065677, \$30)

"Once again, Mitchell's inventiveness and imagination prove to be nothing short of genius. He combines dark fantasy, boldly original prose, and finely drawn characters who will keep the reader riveted from Holly Sykes' initial angst-ridden teen thought to the very last, hopeful sentence. Mitchell proves once again that he is a writer of no equal when it comes to the invention of language, place, and time, taking the reader to the edge of both the real and the imagined as if he were guiding you personally by the hand. I will not have to persuade anyone into enjoying *The Bone Clocks!*"
